Special Notice to Business Men.

As an advertising paper, the Democrat is universally regarded as the established medium of business communication between the home and abroad, offers a favorable opportunity for a judicious dissemination of mercantile intelligence. It also favors family journal, hence retail dealers, as well as more extensive importers, mechanics and citizens will find its columns especially useful.

It is the head of one of the great parties of the country, reaching thousand; that no other medium does reach. Now that the "Fall Campaign" is drawing upon us, we hope they will not fail to learn the facilities our paper affords them, at once availing itself of its advantages, which surpass anything in its former history.

The Know-Nothing Convention at Baltimore.

We bought a body of men who assumed the name Whig, would hardly induce A. J. Donelson, but it seems the Baltimore gathering did not stop where discretion would have dictated. The community might have thought it credible that a Whig should prefer Fillmore; but that he should also induce Donelson. This gentleman was never a Whig; but the opposite. He would not now own the name, or endorse the creed. As long as the Whig party lived, he made war upon it; and if he was not an efficient enemy of that old party, it was not for lack of the will. He denounced the administration of Mr. Fillmore, and allowed him little credit for approving the compromise measures. He is now only a Know-Nothing, in name a Whig; yet a body of Know-Nothings is fact, made up of men co-operating with that party from fact to fact, if they have not joined it by assuming its secret obligations, call themselves Whigs, and not only endorse Fillmore, but they also proceeded to endorse the said Donelson. Would not a meeting of the couple thus endorsed by Whigs, and a talk over their antecedents, be infinitely amusing. Donelson would read to Fillmore the editorials of the Union, and Fillmore say Amen—those portions proving Fillmore an Abolitionist, his Eric letter, &c. Imagine Donelson coming to the sentence, pronouncing Fillmore's administration one long, dull, tedious failure and blunder. Have the discipline of Serapis would bear with indignation. There stop, Donelson; no more of that. Misery makes strange bedfellows; can it be you and I on the same ticket, and endorsed by a body under the name Whig, Fillmore and Donelson? There used to be seven wonders in the world, but certainly there are now eight; and Fillmore and Donelson at the head of a Whig ticket, stands the most wonderful of all the wonders.

But these Whigs take Fillmore without adopting his principles; and the merit is, that he is not pledged to either section of the Union, which simply means, that on the great issues before the country, he takes no side; he is pledged to nothing.

Was there ever impurene more dubious? What is the party done, of which they are now the tail?

What have all their presses and all their speakers been doing, but appealing to the passions and prejudices of the South? Didn't their small squad in Congress compel their candidate for Speaker to make such strides South as have ever been seen? The Know-Nothing journals have been publishing Buchanan's anti-slavery record, as they called it, and they have been largely exercised of the right of franchise was never committed. When we mention this, we don't mean it sermous, but in fact; and if we least in such stut, we could publish rumors every day of similar deeds meditated. The rumors and rumors of the Journal are calculated to proddem them, and then to justify them. It is a fact, that legal voters of this city shot up their houses, and leave the city on election days, owing to concerted and excited violence at the polls, and threats of their repetition. The party that can suppress legal votes, can import illegal ones. It is utterly false that the Democratic party have imported any illegal votes, or even thought of it. They believe that they have plenty of votes in Kentucky; and there are no temptation even to want them from other places.

The opposition are the party apprehensive of defeat. They want illegal votes, if anyone wants them; and if any party has imported men with carpet bags, writes and publishes a long article, with the damning aspersion that some terrible fraud is intended? The other day he imagined that the millions in the Treasury were poured into Kentucky to carry the State. Does he suppose that all are knaves, and that they mediate fraud at all times? His mind is diseased in this embroil of fraudulent voting; and the disease is chronic. At every election we have the same old story. There are witches about; look out for frauds! Now, we don't believe that extensive frauds are possible at any peaceful election, where the judges have time, and are disposed to do justice; as they usually are, when they are divided between parties.

The people of this city understand, not from suspicious circumstances, but from actual facts, what was done by a party little more than a year ago. They know that the legal vote of Louisville was suppressed, and they know how it was done. The vote of this city has not been polled since, owing to the terror and disgust inspired by that bloody day. A more open and unmasking discription of the right of franchise was never committed. When we mention this, we don't mean it sermous, but in fact; and if we least in such stut, we could publish rumors every day of similar deeds meditated. The rumors and rumors of the Journal are calculated to proddem them, and then to justify them. They believe that they have plenty of votes in Kentucky; and there are no temptation even to want them from other places.

And for all these secondarily outrages has the Journal any word of condemnation? Never! The first word of even mild reprobation has not been uttered, since they have come to power. They encourage their repetition, by publishing them as first-rate jokes, and tauntingly declaring that the Democrats of Louisville were too cowardly to defend themselves from such outrages. If the devil had sent an emissary here, he would be fully committed to the party of Know-Nothings, but he would not now own the name, or endorse the creed. As long as the Whig party lived, he made war upon it; and if he was not an efficient enemy of that old party, it was not for lack of the will. He denounced the administration of Mr. Fillmore, and allowed him little credit for approving the compromise measures. DAILY DEMOCRAT.

SATURDAY - SEPTEMBER 20, 1856.

Home Number.
The Daily Democrat costs only TEN CENTS per week, payable to the carriers, and delivered at any place in the city. Who will go without news when it can be had at so cheap a rate!

Leave your orders with our clerk, or subscriber to our express direct, and the paper will be promptly furnished.

Dealers in Medicine.

Burke's Sampson commands the largest sale, and is the best preparation before the public. When purchasing seek he who can take no other.

PHONIC HUNTING. — Benedict, a sieve of Mr. Bon, Webster, was brought yesterday in complaint of a free colored woman on a charge of assault. It seems that Benedict is engaged largely in the business of growing peacock feathers, and his birds are in the habit of straying far and wide. He has a flock of them on complainant's premises, which he believed with the view of tricking out upon their tails—the most approved mode of capture. Complaint objected to the foul transaction (play on the word foul), and a physician's encounter ensued, which, considering complainant's condition was no evidence of Benedict's gallantry. The patient recovered, which he attributed to the principle of popular sovereignty, as embodied in the Kansas Nebraska law, his prototype of liberty and bitterness in the opposition of the Federalists and New England abolitionists. The trial of Dr. John D. Lothrop, of the Jewell Quaker of Massachusetts, was likewise appealed to that purchase, and now again he is engaged in the cause of freedom. He has been indicted for the Kansas law and the Democracy of 1856. He has issued a challenge to the trial of his trial, and is ready to meet it.

CONTRACTORS. — Several injunctions were returned yesterday morning, in Judge John Scott's court, against citizens for contravening the streets and sidewalks. Builders are in the habit of placing too liberal a construction upon the provisions in the charter which gives them the right to occupy half the street with materials in the construction of buildings. They can occupy almost the street immediately in front of their own property; but they too often take the liberty to scatter these materials in front of other people's property, and, by permitting the rubbish to obstruct the gutters, prevent the free passage of water, &c., thus directly violating an important ordinance. The rights of a majority depend upon careful observance of the real rules of city government. A property holder should not be a slave to the majority, and in the improvement of his property, but they too often take the liberty to scatter these materials in front of other people's property, and, by permitting the rubbish to obstruct the gutters, prevent the free passage of water, &c., thus directly violating an important ordinance. BLACK REPUBLICAN SENTIMENT. — The Raven (Oxon) Reformer—a Black Republican print—in a recent issue gives utterance to the following:

"Our readers will remember that in our last paper, we published a speech from Genl. Grant, in which he takes the ground that arms alone will not win the war. If he be right, what is our duty? Is it still to wait for some one to hazard a blow? Or is it to risk a frontal attack? That is the question. We are in the 15th month of the war, and the 15th of January of that year made us, in which he said:

"This will pass, this is my deliberate opinion, but it is well to bear in mind that there is a certain point in every war, when that
